

# CONGRATULATIONS

to our 2020 House Team Leaders and Deputies.

## Do you have a story to tell?

We are two UniSA Occupational Therapy students working with the Department of Rural Health, doing a community project in Whyalla! We will be here for 9 weeks and would like to hear about Whyalla families' experiences with accessing health-services for their children's development. This could include experiences with accessing information or services from a health-professional or childhood educator, or your experience with waiting lists.

Do you have a positive experience to share? An opinion on how the current services could be improved? Is there some kind of support missing from the current available services that you think could help?

Please reach out and let us know by:

- Contacting Cynthia Spangenberg – Student Wellbeing Leader – if you are interested in participating in a parent discussion group
- Sending us an email about your experience
- Talking to us if you see us around, please say hi!

We look forward to learning more about your community and experiences, which will contribute towards our end of project report.
